

THANK YOU SPEECH BY
HKABPW BURSARY RECIPIENT 2005
LOTTE CHAN
INFORMATION ENGINEERING STUDENT AT CITY UNIVERSITY OF HONG KONG

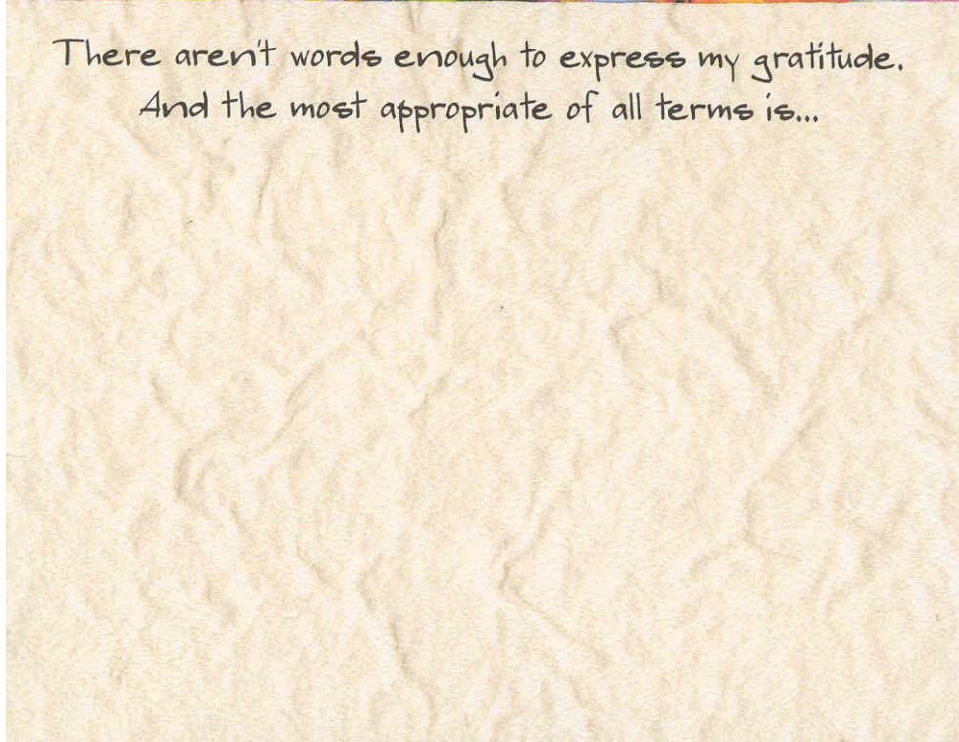

Chosen to be one of the recipients of the Business and Professional Women Bursary in the Year of Rooster, I'm really thankful.

Being an engineering student, I definitely have the same strong love to the field as other male students do, and I surely believe that I would not let myself to be beaten by them for the reason I'm a female. I can do as well as they could and may be even better.

There aren't words enough to express my gratitude; I just wish to take this opportunity to show my great thanks to the Hong Kong Association of Business and Professional Women. For the support and assurance they have shown to me on my studies and my ability to achieve excellence. And I will take the chance to devote myself in the Association as an ambassador in the coming year. Thank you.
